

SPC Flooring

DISCOVER THE DURABILITY & STYLE OF SPC FLOORING

What is SPC flooring?

SPC (Stone Plastic Composite) flooring is a fantastic choice for anyone looking for a stylish, durable, and low-maintenance flooring option. Made from a mix of limestone, PVC and stabilizers, SPC flooring has a super-strong core that can handle heavy foot traffic, temperature changes, and even moisture — making it perfect for kitchens, bathrooms, and busy areas. With a choice of three colours, these planks easily mimic the look of natural wood — without the high cost or upkeep. Plus, it's easy to install with a simple click-lock system, so you can quickly transform your space without any hassle. It's durable, easy to clean, and stylish, SPC flooring is an ideal solution for anyone looking to refresh their space with a modern, practical touch.

SPC Flooring Features

Waterproof and Moisture-Resistant

SPC flooring is 100% waterproof, perfect for kitchens, bathrooms, and laundry rooms, as it won't warp, swell, or peel from water exposure.

Durability

SPC flooring has a strong core made from limestone and PVC, which means it can handle everyday wear and tear, without showing scratches or dents.

Realistic design options

Available in a range of colours, SPC flooring replicates the look of natural wood.

Easy to Install

SPC flooring often features a floating installation system with a click-lock mechanism, which makes it easy for DIY projects. No glue or nails are needed.

Low Maintenance

SPC flooring requires minimal maintenance, with a protective wear layer that resists stains and UV rays to prevent fading from sunlight.

Affordable

Offers the look of high-end materials like hardwood at a fraction of the price, making it a budget-friendly flooring solution.

Types of SPC Flooring

SPC flooring is available in a choice of colours that replicate the appearance of natural wood. With high-definition prints and textured surfaces, it offers a highly realistic look, making it easy to match any interior design style.
